Subject: RE: Statutory Language Drafting Request - BB0449

Thanks Mark. We've been struggling a little bit with this question to (how do we add a reporting requirement if there's nothing to be reported yet). If you can finesse that for future programs, that would be great.

Sara:

13.106 seems like a good place for this. As for the new campuses, we don't have a capital budget yet, so there isn't anything to cross reference. However, I can refer to rural medicine programs in a way that covers future programs that haven't been established yet.

E-mail: Sara.Hynek@Wisconsin.gov

Agency Acronym: UW

Agency Number: 285

Priority: Medium

Intent:

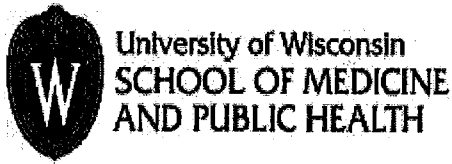

Create an annual reporting requirement for both the UW-Madison and the Medical College of Wisconsin regarding:

1. number of students enrolled in rural medicine programs (which means Wisconsin Academy of Rural Medicine for UW-Madison, and the two new campuses to be built in Green Bay and Wausau for MCOW - this is included in the capital budget, I don't know if there's a way to cross reference?)
2. Type (medical focus) and location of residency of the students in the rural medicine programs
3. Post-graduation practice location for graduates of the rural medicine programs

It was suggested that this requirement be placed into 13.106 - if that makes sense, great, otherwise whatever is appropriate from your standpoint.

2012-13 Admissions Information

The [WARM Admissions Guide for 2012-13 \(pdf\)](#) is now available. Learn more about our application process on the [Admissions and Financial Aid](#) page.

Video: Learn about the Wisconsin Academy for Rural Medicine.

The Wisconsin Academy for Rural Medicine (WARM) is a rural education program within the [MD Program](#) curriculum at the University of Wisconsin School of Medicine and Public Health in Madison.

Medical students who are enrolled in this four-year program will learn to develop the skills and have opportunities to participate in a rural setting.

The goal of the Wisconsin Academy for Rural Medicine program is to admit students who intend to practice rural medicine and ultimately help increase the number of physicians who practice medicine in rural Wisconsin and help improve the health of rural Wisconsin communities.

DOA:.....Hynek, BB0449 - Rural medicine residency reports

FOR 2013-2015 BUDGET — NOT READY FOR INTRODUCTION

SAW
xref N/A

1 AN ACT ^{don't gen} relating to: the budget.

Analysis by the Legislative Reference Bureau

EDUCATION

HIGHER EDUCATION

This bill requires the Medical College of Wisconsin and the University of Wisconsin-Madison Medical School to submit an annual report to the governor and legislature that describes all of the following: 1) the number of students enrolled in rural medicine programs; 2) the medical specialties and residency locations of the students; and 3) the post-graduation practice location for program graduates. ^{the}

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

2 SECTION 1. 13.106 [✓] (4) of the statutes is created to read:

3 13.106 (4) (a) In this subsection, "rural medicine program" includes the

4 Wisconsin Academy for Rural Medicine [✓] and any other rural medicine program

5 established after the effective date of this paragraph [LRB inserts date].

1 (b) By October 15 of each year, the Medical College of Wisconsin and the
2 University of Wisconsin–Madison Medical School shall submit an annual report to
3 the governor and to the chief clerk of each house of the legislature for distribution
4 to the legislature under s. 13.172 (2) that provides information on all of the following:

5 1. The number of students enrolled in rural medicine programs.

6 2. The medical specialties and residency locations of the students in rural
7 medicine programs.

8 3. The post-graduation practice locations for graduates of rural medicine
9 programs. *2*

Revise to define "rural or underserved urban medicine program," and refer to MCOW programs as noted below. Add reference to UW's Triumph program. Don't limit WARM an Triumph as UW Medical School programs, as School of Public Health participates.

Revise to refer to "initial" post-residency programs.

Wait to hear from Breann regarding changes to current law reporting in other provisions of s. 13.106.

Subject: RE: Rural medicine residency reports

Okay. I think I'd refer to community medical education programs of the Medical College of Wisconsin. For the sake of consistency, I think I'd also refer to the Wisconsin Academy for Rural Medicine of the UW-Madison Medical School.

Based on the website below it looks like MCOW is planning more than one, so I'd say programs, instead of program. Also, I could be wrong, but it looks like "community medical education program" is more a descriptive title, rather than actual title, of the programs, so I wouldn't use all capital letters ("Community Medical Education Programs") and instead use lowercase("community medical education programs"). However, if that is its official title, let me know, and I'll go with capital letters.

One last thing (sorry!), but, based on the website below, it looks like MCOW's programs will address rural and underserved urban areas. Is it still okay to refer to "rural medicine program"? Or should the term be revised to "rural or underserved urban medicine program"? Of course, if the focus will primarily be rural, then you could stick with the term "rural medicine program."

Mark, a couple changes.

Can we include in the definition of a rural medicine program MCOW's Community Medical Education Program?

Also, #3 on the reporting requirements should be "the postresidency practice locations for program graduates."

Thanks!

Subject: Other Medical School Reporting

Hi Mark,

Here are the other changes to 13.106 Medical College of Wisconsin and UW Madison Medical School Reports.

Can these changes just be combined with draft LRB 1535?

Intent: Combine "enrollment report" under 13.106 (1) and "family practice report" under 13.106 (3) into one report.

- Due October 15 of the each even-numbered year
- Submit report to the Governor, joint committee on finance and chief clerk of each house of the legislature for distribution to the legislature under 13.172(2).

13.106 Medical College of Wisconsin and UW-Madison Medical School reports. *RP*

13.106(1) (1) The Medical College of Wisconsin and the University of Wisconsin-Madison Medical School shall biennially report to the governor and the joint committee on finance on the:

13.106(1)(a) (a) Minority student recruitment policies and programs of each medical school, and the number of minority students enrolled. *(ac)*

13.106(1)(b) (b) Number and percentages of Wisconsin residents enrolled. *(ag)*

13.106(1)(c) (c) Average faculty salaries compared to national averages. *(al)*

13.106(1)(d) (d) Development of cooperative educational programs with other institutions throughout this state.

13.106(1)(e) (e) Placement of graduates of doctor of medicine and residency training programs. *(ap)*

13.106(2) (2) The Medical College of Wisconsin and the University of Wisconsin-Madison Medical School shall submit a biennial report containing financial summaries for the college and school to the governor and the joint committee on finance, in a consistent format and methodology to be developed in consultation with the medical education review committee under s. 39.16. *the JCF,*

13.106(3) (3) By October 15 of each even-numbered year, the Medical College of Wisconsin and the University of Wisconsin-Madison Medical School shall submit a report to the governor and to the chief clerk of each house of the legislature for distribution to the legislature under s. 13.172 (2) that provides information on all of the following:

13.106(3)(a) (a) The financial status of the family practice residency sites. *(ax)*

13.106(3)(b) (b) The number of family practice residents choosing to practice in medically underserved areas of the state upon graduation.

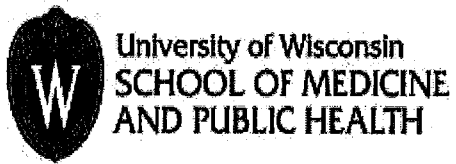

13.106(3)(c) (c) The number of graduates entering family practice as a career.

History: 1973 c. 333; 1977 c. 418; 1983 a. 524; 1991 a. 39; 1995 a. 54.

Please let me know if you have questions.

Training in Urban Medicine and Public Health

About TRIUMPH

The University of Wisconsin School of Medicine and Public Health has developed an urban medicine training program, Training in Urban Medicine and Public Health (TRIUMPH), in response to the shortage of physicians in urban areas of Wisconsin.

A report produced by the Wisconsin Hospital Association and the Wisconsin Medical Society states, "After reviewing existing data and analysis, the task force concluded that an unmet current need exists for physician services and that the problem will likely grow worse in the future unless aggressively managed."

The urban medicine program was developed by UW School of Medicine and Public Health faculty in Madison and Milwaukee. The program was piloted during the 2008-09 academic year with six third-year medical students. The first cohort of seven students graduated in May 2011. Including the cohort starting in January 2013, 53 students have participated in the program.

In 2011, Training in Urban Medicine and Public Health increased its capacity by taking 8 third-year students each July for an abbreviated version of the program - Summer-Fall TRIUMPH. Students in Summer-Fall TRIUMPH take the Primary Care, Internal Medicine (one month in Milwaukee and one in Madison) and Obstetrics and Gynecology clerkships. They also complete the TRIUMPH I and II courses and work with a community-based mentor and organization on a health improvement project. They complete this TRIUMPH experience in December of their third year.

The UW School of Medicine and Public Health has received \$400,000 in annual funding from the state of Wisconsin since 2008 to support both Training in Urban Medicine and Public Health and its counterpart, the Wisconsin Academy for Rural Medicine (WARM).

Frequently Asked Questions: Medical College of Wisconsin's Community Medical Education Program

John R. Raymond, Sr., MD, President and CEO of the Medical College of Wisconsin, offers answers to the questions most frequently asked about the proposed community medical education program campuses in Central Wisconsin and Green Bay.

The need for more physicians

Why is the Medical College of Wisconsin (MCW) developing community medical education program campuses in Central Wisconsin and Green Bay?

Recent reports from the Wisconsin Hospital Association, the Association of American Medical Colleges, and the Wisconsin Office of Rural Health have projected significant shortages of physicians in the coming decades, particularly in the primary care fields and in underserved rural and urban areas. To that end, MCW assessed its capacity to contribute to mitigating the physician shortfall and maldistribution in Wisconsin, especially relating to increasing access to primary care practitioners and to preparing medical students for the future delivery of health care.

MCW is deeply committed to developing an expanded medical education program which both addresses the need for primary care physicians in underserved communities across the state and employs an innovative teaching model to prepare medical students to face the challenges of our rapidly evolving, 21st century health care environment. We believe MCW should make every reasonable effort to expand its role in the physician training/health care continuum.

Planning for Green Bay/Central Wisconsin programs

What factors led to the decision to select Green Bay and Central Wisconsin as the first two regions for this initiative? What qualities within Green Bay and Central Wisconsin led to this decision?

Factors that led to MCW's determination that Green Bay and Central Wisconsin are appropriate sites for the development of plans for community medical education programs are: strong health systems with outstanding physicians and established programs for student-focused clinical experiences, quality academic institutions with a scientific program infrastructure, and civic and business engagement and enthusiastic support. The communities in Green Bay and Central Wisconsin also expressed a strong readiness to proceed.

What needs to be accomplished before the Central Wisconsin and Green Bay campuses are opened?

MCW is in the development phase of planning for the Central Wisconsin and Green Bay community medical education program sites. Milestones identified by the Medical College's Board of Trustees must be achieved before student recruitment will begin on both campuses.

Those milestones are relevant to accreditation, funding, faculty recruitment and development, formalized agreements with local health systems and academic institutions, MCW faculty approvals, and the creation of local residency programs.

How many students will be enrolled at the Medical College's campuses in Green Bay and Central Wisconsin?

Sorry about that. The 2nd sentence of the analysis has a mistake: the report mentioned is a biennial report, not annual. The 3rd sentence also has a mistake – it should say that the reports will be combined into one biennial report.

Hi Mark,

Draft 1535 – medical reports – looks good – but I have one clarifying question.

The analysis indicates that the newly combined enrollment/family practice residency report is annual – but the language seems to keep it as a biennial report.

Is this just a typo in the upfront analysis?

We want the combined report to be biennial – due on Oct 15 to the JCF, Gov and Legislature.

DOA:.....Hynek, BB0449 – Rural medicine residency reports

FOR 2013-2015 BUDGET — NOT READY FOR INTRODUCTION

1 AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau

EDUCATION

HIGHER EDUCATION

Under current law, the Medical College of Wisconsin and the UW–Madison Medical School (medical schools) must submit a biennial report to the governor and JCF that includes information about minority student recruitment and enrollment, state resident enrollment, faculty salaries, cooperative educational programs, and residency placement of graduates. Current law also requires the medical schools to submit a biennial report to the governor and legislature regarding family practice residencies. This bill combines the foregoing reports into one biennial report that must be submitted to the governor, JCF, and legislature.

This bill also requires both medical schools to submit an annual report to the governor and the legislature that describes all of the following: 1) the number of students enrolled in rural or underserved urban medicine programs; 2) the medical specialties and residency locations of the students; and 3) the initial postresidency practice locations for program graduates.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 13.106 (1) (intro.) of the statutes is repealed.

2 **SECTION 2.** 13.106 (1) (a), (b), (c), (d) and (e) of the statutes are renumbered
3 13.106 (3) (ac), (ag), (aL), (ap) and (at).

4 **SECTION 3.** 13.106 (3) (intro.) of the statutes is amended to read:

5 13.106 (3) (intro.) By October 15 of each even-numbered year, the Medical
6 College of Wisconsin and the University of Wisconsin–Madison Medical School shall
7 submit a report to the governor, the joint committee on finance, and to the chief clerk
8 of each house of the legislature for distribution to the legislature under s. 13.172 (2),
9 that provides information on all of the following:

10 **SECTION 4.** 13.106 (3) (a) of the statutes is renumbered 13.106 (3) (ax).

11 **SECTION 5.** 13.106 (4) of the statutes is created to read:

12 13.106 (4) (a) In this subsection, “rural or underserved urban medicine
13 program” includes the Wisconsin Academy for Rural Medicine, the Training in
14 Urban Medicine and Public Health program, any community medical education
15 program of the Medical College of Wisconsin, and any other rural or underserved
16 urban medicine program established after the effective date of this paragraph
17 [LRB inserts date].

18 (b) By October 15 of each year, the Medical College of Wisconsin and the
19 University of Wisconsin–Madison Medical School shall submit an annual report to
20 the governor and to the chief clerk of each house of the legislature for distribution
21 to the legislature under s. 13.172 (2) that provides information on all of the following:

22 1. The number of students enrolled in rural or underserved urban medicine
23 programs.

24 2. The medical specialties and residency locations of the students in rural or
25 underserved urban medicine programs.
